MALTESE CROSS

EYE CARE CLINIC

Planning and building of fully-equipped eye clinic. The capital investment is about 10 millions EURO in 2019-2020

Potentials:

- More than 400 000 inhabitants in Malta;
- More than 2 000 000 tourists in 2018 and this amount increases from year to year

The highly professional ophthalmological clinic to provide for native Maltese and foreign people:

- Up to 40 000 consultation per year;
- Up to 15 000 LASIK and PRK
- Up to 10 000 phacoemulsification
- Up to 2 000 vitreoretinal surgeries

MALTESE CROSS EYE CARE CLINIC

Special focus will be on recovery of blind people (bionic eye Argus II).

Also the developing of eye oncology center is in our further plan in Malta.

MALTESE CROSS

EYE CARE CLINIC

The founding of Training Centre based on our Eye Care Clinic to study optometrists and surgeons in ophthalmology in 2020-2024.

We plan to develop the education in refractive and cataract surgery and to organize of VETLAB Training Courses: up to 100-150 doctors can start their practice in surgery on artificial and animal eyes.

MALTESE CROSS EYE CARE CLINIC

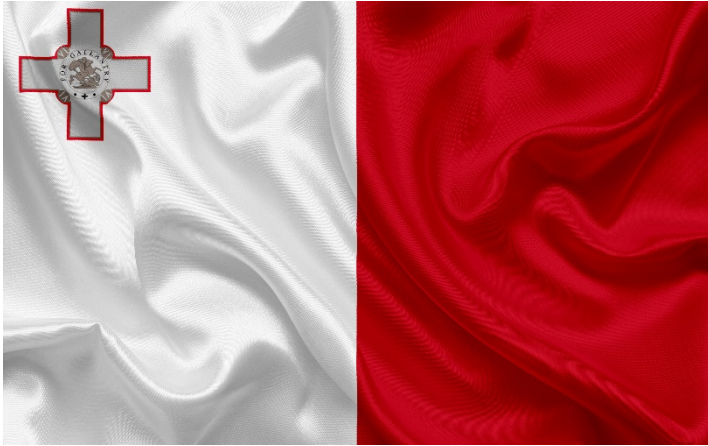

Vitreoretinal surgery is mostly complicated in ophthalmology. The improvement of manual skills is key to success. This is the core aim of vitreoretinal Training Course.

The investments in opening of Training Centre is estimated about 5 millions Euro

EYE CARE CLINIC

The third step:
the founding of medical university and multidisciplinary university
clinic in period under 2029-2030.

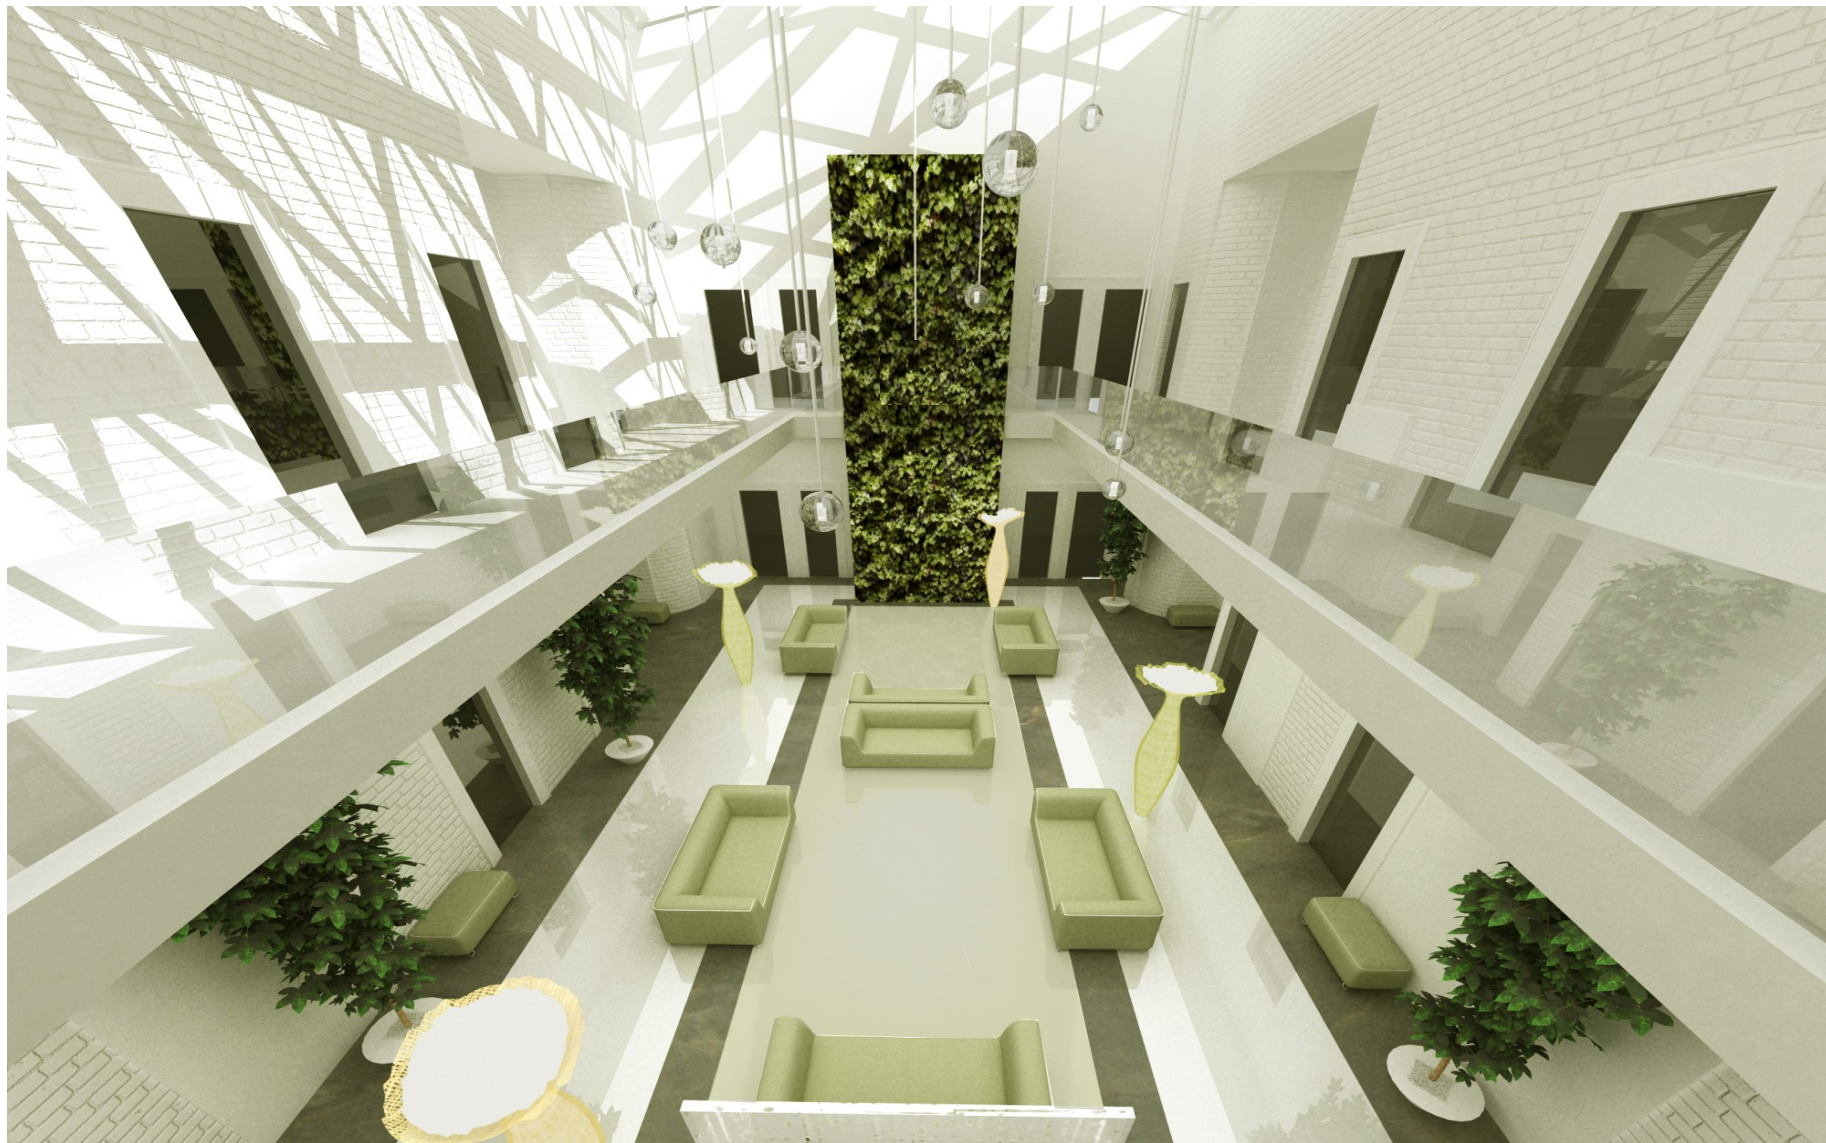

The investments should reach about 90-100 millions of Euro
on this step.
